

## FLYING LETTERS

This is a penfriend project. Because of the pandemic process, our students in this project will send e-mails to each other. We are 8 partners in this project and we will start in October and finish in May. So, the project will continue 8 months. We will choose different topics (the culture of our countries, our school activities, our families etc.) for each month. And also, we will have presentations related to our project each month.

#### ESTELLE DI PONIO

Thank you for your emails dear Turkish penpals !!! French students are answering their Turkish partners and talking about food !!! Yummy :) Now I feel hungry :)

## ESTELLE DI PONIO

French students from Fontenay le Fleury started writing their letters in class yesterday :D

We are ready to work on this month's topic: our school. This month we will be matched with pupils of Descartes College in France. We decided to exchange "old fashioned" handwritten letters instead of emails and to send them by snailmail. Traditional letters are maybe slow but they are fascinating and authentic!!!! We are very excited about it! Thank you Miss Di Ponio and her students !!!
